FINANCIAL SERVICES INDUSTRY SPEAKER SERIES

New Frontiers in Fixed Income: From Electronic Trading to Decentralized Finance

Featuring Jay Raol from Invesco

Jay Raol is Director of Quantitative Research for the systematic and factor investing group within Invesco Fixed Income (IFI). In this role, he leads a team that researches and manages systematic and factor based strategies in global fixed income and currency markets. He previously had responsibilities in quantitative macroeconomic strategy, portfolio construction and risk management. Mr. Raol joined Invesco's risk management group in 2011, where he ran the risk analytics function for several large equity funds and has been in the industry since 2010. His experience has spanned across functions including quantitative macroeconomic analysis, portfolio construction and risk management. Mr. Raol earned a BA degree and a PhD in computational and applied mathematics from Rice University in Houston, Texas.
